## MOLDED SKIDSTEER

### BRAWLER SKID STEERS

Brawler molded skid steer tires are engineered to eliminate tire related downtime and provide superior vehicle performance in severe duty applications. Brawlers feature an enhanced rubber compound designed for greater resistance to cutting and chunking. No pressing is required as Brawlers feature a built in wheel that simply bolts on. Brawler Skid Steer tires are available in all skid steer sizes including 10-16.5 and 12-16.5.

### FEATURES & BENEFITS

- Ultra tough, cut-resistant rubber compound.
- Impact protection – rubber overlays the base band.
- Up to 40% increased load capacity over pneumatics maximizing skid steer potential and efficiency.
- Non-directional traction and smooth tread profiles are available.
- No pressing required – simply bolt them on.
- Brawler Skid Steer tires have passed the rigorous testing of Original Equipment Manufacturers such as Case, Caterpillar, Gehl, New Holland, Thomas and Waldon.
