

NEW PRODUCT RELEASE

# BRAWLER<sup>®</sup> AERIAL MAX

## BRAWLER AERIAL MAX

The new Brawler Aerial Max line of tires are designed and engineered to provide superior stability and safety for Aerial Work Platform applications.

### FEATURES AND BENEFITS

- Maintenance Free – no worries about flats or downtime.
- Stability that pneumatics and foam filled pneumatics can't deliver.
- A Complete Assembly that bolts on to the OE Axle.
- Low Profile tire enhancing center of gravity.
- Built to handle the most Severe Conditions .
- Increased Load Carrying Capacity over pneumatic tires and no worries about maintaining air pressures.

Features specific to larger sized Aerial Max tires:

- Elliptical Apertures that provide a pneumatic type ride without the bounce.
- Premium Mining Rubber Compound, that is more resistant to cuts and chunks.

### SPECS

Pneumatic Equivalent	Tire Size	Overall Diameter (in)	Rubber Thickness (in)	Section Width (in)	Weight (lbs)	LCC (lbs) 5 MPH
200-8 2.50	12X4-10	12.0	4.0	4.00	22 w/o Brake 24 with Brake	1,500
400-8 3.75	16X5-12	16.0	5.0	5.00	37 w/o Brake 43 with Brake	2,500
385/65D 22.5	43.0X6X14.5	43.0	5.8	14.50	654	14,663
445/65D 22.5	46.5X6X17.75	46.5	6.0	17.75	828	19,988

### APPLICATIONS

- Telescopic Booms
- Mobile Cranes
- Scissor Lifts
